Public Participation in the Meeting

The public can play an active role in the conversation about state cannabis standards and regulations by viewing the CAC meeting and offering input during public comment periods. The public can also submit comments before the meeting by emailing CAC@cannabis.ca.gov.

Public comment periods will be held where noted on the agenda and after each agenda item. Remarks must address the specific agenda item for which a public comment period is being held. The amount of time allocated for each comment may be limited.

Meeting Accessibility

DCC is committed to ensuring that our services, programs and meetings are accessible to all, including people with disabilities. The meeting will include closed captioning.

If you wish to request a disability-related accommodation, in accordance with federal and state law, email CAC@cannabis.ca.gov. Please provide your request at least five days before the meeting to help ensure availability of the requested accommodation.

Additional Information

If you have any questions about this meeting notice, email CAC@cannabis.ca.gov.

Public Comment for Items Not on the Agenda

2. Public comment for items not on the agenda

Items for Discussion and Possible Recommendation

3. Current challenges for cultivators to change license size/type (Discussion and possible action)

The subcommittee will discuss the current challenges and needs for cultivators to change their license size and type to inform a potential subcommittee recommendation:

- *What challenges currently exist that prevent cultivators from changing their state license size or type?*
 - *What implications may exist for local permits that should be considered?*
 - *What implications may exist for local or state CEQA review that should be considered?*
 - *What implications may exist for provisional license status that should be considered?*
- *Would temporary reductions in cultivation license size support opportunities for those who wish to engage in local following programs or otherwise reduce their canopy size?*
 - *Is there a reason to limit temporary reduction opportunities to certain cultivation licenses (outdoor, mixed-light tier 1, mixed-light tier 2, and/or indoor)?*
 - *Which type(s) of activities allowed under a cultivation license does the subcommittee anticipate cultivators would need to continue?*
- *What pros and cons should be considered for the potential filing periods during which temporary license reductions could be sought: license period (from renewal until expiration date), seasonal, or calendar year? The filing period is the timeframe during which a cultivator would request a temporary reduction, and the 12-month timeframe during which the reduction would be active.*
- *Should a cultivator be allowed to rescind their temporary license-size reduction request, and if so, what parameters should be considered?*

4. Challenges and opportunities for cultivators to reach consumers (Discussion and possible action)

The subcommittee will discuss the challenges that exist and potential opportunities for cultivators to reach consumers to inform a potential subcommittee recommendation:

- *What constraints exist within the microbusiness license type related to local zoning, CEQA compliance or state operational requirements that limit their use?*
- *What would support enhanced flexibility for this purpose with the microbusiness license type?*

Other Business

5. Recommendations for future agenda items (Discussion item)
6. Adjournment
